KADIRI MOHAMMAD ROSHAN

• +91 9000739505 • kmdroshan54@gmail.com • Linkedin • Github • Bangalore, Karnataka

CAREER OBJECTIVE

Motivated and results-driven B.Tech student of Computer Science and Engineering specialising in Artificial Intelligence and Machine Learning, seeking an opportunity to apply strong programming skills, analytical thinking, and academic foundation in real-world projects. Eager to gain hands-on experience in problem-solving, and contribute meaningfully to innovative, high-impact software solutions.

EDUCATION

REVA University - Bangalore, KA	2022-2026
B.Tech in Artificial Intelligence and Machine Learning	CGPA:9.4
Rajiv Gandhi University of Knowledge Technologies - RK Valley, AP	2020-2022
Intermediate in Maths, Physics and Chemistry	CGPA:9.19

KEY SKILLS AND TOOLS

- Programming languages : Java, Python, HTML,CSS
- Databases : MySQL
- Tools : Visual Studio Code, Jupyter Notebook, Intellij
- Deep Learning, Machine Learning, NLP, LLM's

PROJECTS

- **Leaf Disease Detection, Deep Learning, Python:** Developed a machine learning-based system that can automatically detect and classify plant leaf diseases using image processing and deep learning techniques, helping farmers and agriculturists take timely action to prevent crop loss. This project uses computer vision and deep learning to identify common plant leaf diseases from image data.
- **Crop Recommendation System, Machine Learning, Python**:Built an intelligent Machine Learning model that recommends the most suitable crop to cultivate based on environmental and soil conditions, using supervised machine learning techniques. This tool aids precision agriculture and contributes to sustainable farming.
- **Gas Leakage Detection System, IOT:** Designed a real-time gas leakage detection system using IoT sensors and alert mechanisms to ensure safety in homes, industries, and public areas. The system improves early hazard detection, reduces risk of explosions or poisoning, and enhances automated safety in smart environments.

CERTIFICATIONS

- **Data Structures and Algorithms** – Infosys Spring Board(Java)
- **Java** - Hacker Rank
- **SQL** - Hacker Rank
- **Python** - Hacker Rank
- **DBMS** - Scalar
